polycarboxylate superplasticizer ether pce
polycarboxylate water reducing agent

polycarboxylate superplasticizer ether pce polycarboxylate water reducing agent is a new generation friendly environmental superplasticizer. It is a concentrated product, best high water reduction, high slump retention ability, low alkali content for the product, and it having high strength gained rate. It can be widely used in premix of common concrete, gushing concrete, high strength and durability concrete. Especially! It can be used in high strength and durability concrete having excellent capability .

Quality Specification

Item	Unit	result
Name	/	polycarboxylate superplasticizer ether pce polycarboxylate water reducing agent
Appearance	/	White powder
Density	kg/m ³	500 ± 50
PH	/	6.0 ± 1.0
